

## 2021 IEEE International Conference on INnovations in Intelligent SysTems and Applications (IEEE INISTA-2021)

25–27 August 2021, Kocaeli, Turkey

The International Conference on INnovations in Intelligent SysTems and Applications (INISTA) has been organized since 2005. It aims to bring together the researchers from the entire spectrum of the multi-disciplinary fields of intelligent systems and establish effective means of communication between them. In particular, it focuses on all aspects of intelligent systems and the related applications, from the points of view of both theory and practice. Apart of the main track it includes work-shops, tutorials, special sessions and plenary talks by invited speakers.

The conference will be hosted in Kocaeli, a gateway connecting Europe with the Middle East and Asia. Kocaeli is an another Turkey's cultural gem and logistics heaven. It was a crucial trade centre for the Eastern Roman Empire. Today, along the commercially active Black Sea and the Marmara Sea shorelines making it a gateway to global markets.

IEEE INISTA-2021 is organized by Kocaeli University, Turkey, in cooperation with Yildiz Technical University, Turkey. We strongly believe that situation with COVID-19 virus will be normalized and that we will meet at the end of August in 2021. But, If the pandemic and uncertainties regarding to travel restrictions continue, there is a possibility that the conference will be held on a hybrid basis. The authors of selected best papers will be invited to extend their contributions for special issues. Details and all information can be found at the conference web site [www.inista.org](http://www.inista.org).
